

Dear Incoming Intern, Resident, or Fellow:

Please obtain the following requirements from your physician or current hospital:

Measles, Mumps, Rubella, and Varicella

- Medical documentation of two doses of Measles, Mumps, Rubella and Varicella vaccinations **OR**
- Medical documentation of blood titers indicating **immunity to Measles, Mumps, Rubella, and Varicella**
- Disease history of Measles, Mumps, Rubella, and Varicella will not be accepted.

Tuberculosis Screening

History of a negative TB screening, test please provide:

- Medical documentation of a QuantiFERON Gold blood test completed within 3 months of UCLA Orientation **OR**
- Medical documentation of a 2-step TB skin test. Step 1 must be completed within the last 12 months. Step 2 must be completed within 3 months of UCLA Orientation.

History of a positive TB screening test, please provide:

- Documented proof of a positive PPD or QuantiFERON Gold blood test
- Medical documentation of INH treatment, if applicable.
- Medical documentation of chest radiograph report within 3 months of UCLA Orientation.

BCG vaccination does not exempt you from the above requirements.

Hepatitis B Screening

Please provide:

- Medical documentation of 3 Hepatitis B vaccinations and medical documentation of Hepatitis B surface Antibody blood titer demonstrating immunity.
- Signed Hepatitis B declination form if unable to provide medical documentation.

Tetanus, Diphtheria, Pertussis Vaccine (Tdap)

Please provide:

- Medical documentation of a Tdap vaccination **OR**
- Signed Tdap declination if unable to provide medical documentation.

Flu Vaccine

- You will be required to receive a flu vaccine at the beginning of each influenza season (or wear mask in patient care areas)

If you are unable to provide medical documentation of any of the above requirements, TB tests, titers and vaccinations and will be provided during UCLA Orientation.

Sincerely,
UCLA Occupational Health Facility
