Dr. Deanna Attai and Dr. Rochelle Dicker on the News

Dr. Deanna Attai, an assistant clinical professor in the department of surgery, commented in the following news stories:
• A Washington Post article about genetic testing guidelines for breast cancer patients.
• A Reuters article about a new study that found better breast cancer screening and treatments may have saved hundreds of thousands of lives over 30 years.
• An Insider article about a rare cancer linked to breast implants.
• An article from Cancer Today explored how cancer patients feel about being called “survivors.”

Dr. Rochelle Dicker, Vice Chair of Critical Care Surgery, commented in a California Health Report story about a violence intervention program based at UC San Francisco that helps victims of assault, which Dr. Dicker developed while working there.

In Memoriam

Dr. Warren S. Grundfest was born in Little Rock, AR, and grew up in Belleville, NJ as a member of a family devoted to the practice of medicine. After Dr. Grundfest earned his BS degree from Swarthmore College, he studied Neurophysiology and Biochemistry with the Nobel Laureate Dr. Eric Kandel at Columbia University and received his medical degree from Columbia University College of Physicians and Surgeons. Dr. Grundfest conducted his internship and general surgery residency at the University of California at Los Angeles (UCLA) and Cedars-Sinai Medical Center. After serving for many years as a physician and surgeon, Dr. Grundfest was awarded the Dorothy and E. Phillip Lyon Endowed Chair in Laser Research and Development at Cedars-Sinai. Early in his career, Dr. Grundfest was best known for his cutting edge work on the excimer laser for medical applications. In addition to being a professor in the Department of Surgery at the David Geffen School of Medicine, UCLA in 1985, he returned to UCLA full time as Chairman of a new program and subsequently, the Department of Biomedical Engineering at the Henry Samueli School of Engineering & Applied Science where he remained a senior professor until his death. Dr. Grundfest was also a founding member of the board of Society for Brain Mapping and Therapeutics (SBMT) and Brain Mapping Foundation (BMF). Among his many achievements, Dr. Grundfest was a recipient of the Pierre Galletti Award from the American Institute for Medical and Biological Engineering, the AIMBE’s highest honor.
**ANNOUNCEMENTS AND UPCOMING EVENTS**

**Dr. Gerald D. Buckberg’s Memorial Service**

**Dr. Gerald D. Buckberg’s Art Work (above).** Aside from his scientific achievements, he was an accomplished artist. He painted for decades and won awards for his paintings. In 1966, he won first prize for “beginner’s oils” from the Los Angeles Physician’s Art Society.

**In Memoriam**

Dr. Gerald Buckberg was born and raised in New York City. He received his BS degree from The Ohio State University. He received his MD from the Cincinnati College of Medicine, graduating first in his class, receiving the S.F. Hoffheimer Award. After interning at the Johns Hopkins Hospital in Baltimore, MD, he completed his residency at UCLA under Dr. William Longmire, Jr. He served in the US Air Force from 1967 to 1969. His research years were spent at the Cardiovascular Research Institute at the University of California, San Francisco. He returned to UCLA in 1970s as an Assistant Professor, and thus began his illustrious career as a cardiac surgeon, innovative investigator, and teacher. In 2007, Dr. Buckberg received an Honorary Doctor of Science degree from both The Ohio State University and the University of Cincinnati to recognize his distinguished career. Dr. Buckberg was a Distinguished Professor of Surgery at the David Geffen School of Medicine at UCLA. Among his many awards are the Longmire Legacy Award in 2007, the Gibbon Award for Outstanding Contribution to Science and Practice of Extracorporeal Circulation, and the Lifetime Achievement & Chairman’s Award from the UCLA Division of Cardiac Surgery. He was a National Institutes of Health-funded investigator throughout his career. Dr. Gerald Buckberg was a pioneer in cardiac surgery whose career of achievements was recognized by the American Association for Thoracic Surgery (AATS). He was awarded the AATS Scientific Achievement Award in 1994. Among his many achievements, in 2002, he was honored with the Society of Thoracic Surgeons Lifetime Achievement Award.
Wherever the art of Medicine is loved, there is also a love of Humanity.
