

2019-2020 Rotation Structure Changes

R4 Coverage Rotation:

When an R4 is assigned to cover a service for the week when another R5/R4 is on vacation, they join the service Monday-Friday for rounds/cases/consults/clinic/weekday call. They should NOT be incorporated into the weekend call schedule. The exception to this is they may be covering trauma, as outlined in the Senior Weekend Call Schedule.

See the Senior Weekend Call Schedule for Friday night and weekend off-service trauma chief and resident coverage.

U/MIS: The U R5, U R3 and MIS R5 will alternate weekend call as outlined in the Weekend Call Schedule. The U3 will cover VA consults on Tuesday and Thursdays after 6 pm. The U R3 will take Trauma Resident call on occasion when they are weekend rounding on the U service. The U/MIS Intern and Endocrine interns will alternate weekends, which is determined by the Intern Call Schedule.

C: The R5 and R4 will take weekend call as outlined in the Senior Weekend Call Schedule. The C R4 will take Trauma Chief call on occasion when they are weekend rounding on the C service.

Endocrine: The R4 may take Friday night or Saturday Trauma Chief call as outlined by the Senior Weekend Call schedule. Make sure to discuss the call schedule with the Endocrine fellow so you're covering the Endocrine service when you're on weekend call.

Peds: The Peds R5 and the R1 alternate weekend rounding. During the months when there is a Peds R2, this can be changed at the discretion of the Peds R5. Please see a suggested call schedule for the Peds R5/R2/R1 on the Intern Call Schedule sheet. ***Admin chiefs must be notified of any requests to change the weekend rounding schedule as the Peds R1 weekend rounding is influenced by the Peds R2 and Peds R5 weekend call coverage.**

Thoracic: The Thoracic R1 will be off every Tuesday. The R1 will be on call every Thursday and leave on Friday after morning conference (not to exceed 28 hours). The R1 will work both Saturday and Sunday, but can sign out to the cross cover when their work is complete.

Vascular: There will only be 1 junior resident (R1) on the service with the exception of 3 months during which the Vascular R2 will be on service. During the remaining 9 months, the R1 should make their weekend rounding schedule with the senior being sure to have at least 1 day off/week.

SMH (Wilshire and Arizona):

Wilshire will have an R4, R3, R2 and R1 during the day. Arizona will have an R5, R3 and R1 during the day. When the Arizona R5 or R3 is on vacation, the R2 will switch to the Arizona service to help with rounds.

On Wednesdays, the R1s sign out to the day R2 at 6 PM (or earlier if work complete/to stay within work hours) who stays until 8 PM until night R2 comes. The weekend rounding structure will change. A senior from each service will round over the weekend. One senior will serve as the on call senior and will take consults/operate on both services. The other senior will round on their service and serve as the backup senior if needed.

The attendings assigned to each service is changing:

Wilshire- Drs. Chandler, Kadera, and King, Endocrine and Breast

Arizona- Drs. Chen and Macqueen, Vascular, Thoracic and Peds

VA:

The VA will have both R4s and R3s the entire year. The call schedule will be determined by the R4. The U R3 will take call on Tuesdays and Thursdays.

Kaiser:

The R3s will be covering Kaiser during half of the year. They will be expected to take the occasional weekend call. The Kaiser R3 will also take some Friday night call at Reagan, so please know these dates prior to committing to the Kaiser weekend call.
